

CORE THOUGHT

What Do These Questions Measure?

Output	Outcomes				Item
	Attitude	Knowledge	Behavior	Condition	
					Did students in the mentoring program increase their attachment to school?
					Did stream bank improvements meet standards that will lead to eventual improvements in water quality?
					Did children in the physical fitness program improve their exercise habits?
					Did individuals who received counseling and referrals move into safe, healthy housing?
					How many acres of trail improvement were made?
					Did students in the tutoring program improve their reading skills?
					Did veterans learn how to do online job searches?
					How many homes were weatherized?
					Did victims of domestic violence improve their financial knowledge?
					How many seniors received tax assistance?

NOTES:
